

7TH ANNUAL PTI TRAINING PROGRAM
FORMULATION AND PROCESS DEVELOPMENT
FOR ORAL DOSAGE FORMS
A 5-Day Modular and Case Study Oriented Training Program

AUGUST 29- SEPTEMBER 3, 2010

NASSAU INN, PRINCETON, NJ

**NO MORE HANDOUTS! A FREE NOTEBOOK PC
PLUS ELECTRONIC PRESENTATIONS FOR EVERY ATTENDEE!
A GROUP OF THREE OR MORE CAN RECEIVE A 10% DISCOUNT.**

PROGRAM:

SPEAKERS (Modular Order):

Dr. Harry Brittain
Dr. Navnit Shah & Dr. Duksoon Choi
Dr. Waseem Malick & Dr. Metin Çelik
Mr. Ben Murugesu & Mr. James Prescott
Mr. Dilip Parikh & Mr. David Jones
Dr. Metin Çelik
Dr. Linda Felton & Dr. Stuart Porter
Dr. Russ Somma & Dr. Hashim Ahmed
Dr. Stuart Porter & Mr. Charlie Cunningham

Program Description:

PTI, Inc. is pleased to offer this comprehensive training program for the fifth time. This is a pragmatic program that will be presented in a modular format and will deal with various aspects of those unit operations that are intended to produce pharmaceutical tablets. The modular format will allow participants to focus attention on key activities in which they are interested, as well as provide a broad overview of the key technical aspects associated with tablet development.

Who Should Attend?

This is not intended to be an introductory program for individuals generally unfamiliar with the design and development of oral solid dosage forms. The program will thus be of greatest value to scientists that are currently involved with tablet formulation and process development, and who wish to gain a greater understanding of the key issues that are critical to the preparation of robust tablet dosage forms. Please bear in mind that one of the important features of this training program is that we intend to have a very fruitful, comprehensive, and interactive sessions in which, all participants will have ample opportunity to seek answers for the questions that they might have about the modular sessions of the day. In order to maximize the quality and utilizations of these sessions, we encourage every attendee to provide us in well advance with the questions that they seek answers about the sessions that they will attend. We will then pass these questions to the speakers prior to the event.

Important Note:

Please note that there may be an inevitable change in the program (such as replacement of a speaker) due to any reason. In such a situation, we will spend every effort to keep the high standard of this program; however PTI Inc will not be hold liable for any consequences of such a matter. Please visit www.pti.com for updated information.

SUNDAY, August 29, 2010

Evening Session: Registration & Welcoming Reception (TBF)

DAY 1. Monday, August 30, 2010

Morning Session - Module 1: APIs and Stability

Issues: Solubility; polymorphism; processibility; stability

Presenters: Dr. Harry G. Brittain

Afternoon Session - Module 2: Preformulation

Issues: Physico-chemical & mechanical properties of APIs & excipients

Presenters: Dr. Navnit H. Shah & Dr. Duksoon Choi

Evening Session: Please visit website for the updates!

DAY 2. Tuesday, August 31, 2010

Morning Session - Module 3: General Formulation & Process Development Guidelines

Issues: Formulation development strategies; selection of excipients; Impact of excipients on stability and bioavailability; defining potential processing steps; potential SUPAC & and PAT related issues

Presenters: Dr. A. Waseem Malick & Dr. Metin Çelik

Afternoon Session - Module 4: Milling, Mixing and Flow

Issues: Materials, process, scale-up, trouble shooting, SUPAC and PAT related issues

Presenters: Mr. Benjamin K. Murugesu (TBC) & Mr. James K. Prescott

Evening Session: Special Topic: "Expert Systems"

DAY 3. Wednesday, September 1, 2010

Morning Session - Module 5: Granulation

Issues: Materials, process, scale-up, trouble shooting, SUPAC and PAT related issues

Presenters: Mr. Dilip M. Parikh & Mr. David M. Jones (TBC),

Afternoon Session - Module 6: Compaction

Issues: Materials, process, scale-up, trouble shooting, SUPAC and PAT related issues

Presenters: Dr. Metin Çelik

Evening Session: A Night out - Dinner with participants

DAY 4. Thursday, September 2, 2010

Morning Session - Module 7: Film Coating

Issues: Materials, process, scale-up, trouble shooting, SUPAC and PAT related issues

Presenters: Prof. Linda Felton & Dr. Stuart C. Porter

Afternoon Session - Module 8: Technology Transfer

Issues: Materials, process, scale-up, trouble shooting, SUPAC and PAT related issues

Presenters: Dr. Russell F. Somma and Dr. Hashim Ahmed

Evening Session: Please visit website for the updates!

DAY 5. Friday, September 3, 2010

Morning Session - Module 9: Overview of Drug Delivery Technologies

Issues: An overview of and advances in Orally Disintegrating Tablets and Modified Release Dosage Forms

Presenters: Dr. Stuart Porter and Charlie Cunningham

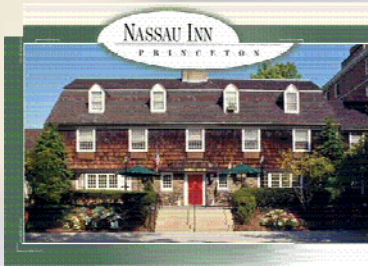

REGISTRATION FORM

7th Annual Training Program

Formulation & Process Development for Oral Dosage Forms

August 29 - September 23, 2010, Nassau Inn, Princeton, New Jersey, USA

Accommodation:

The Historic Nassau Inn located in Princeton, New Jersey. Since 1756, the Nassau Inn has been a gathering place of distinction, well known for its gracious hospitality and elegant facilities. Shuttle Service is available between the Hotel and the Newark - NJ and JFK - NY airports (Call Nassau Inn at 1-609-921-7500 for the details). Visit www.nassauinn.com for further information.

Room Rates:

Guaranteed rate is **\$159.00** per night by **July 29, 2010** (Booking ID = 14367 or Group Name= PTI Conference.) Note: The rate cannot be guaranteed after this date (Subject to change).

Methods of Registration:

By E-mail:

Fill out this page of the form and send it as an email attachment (in pdf format) to training@pt-int.com

By Mail:

Fill out this form and send it to:
PTI Inc.
PO Box 186, Belle Mead, NJ 08502-USA

On-Line Registration:

- Step 1:** Visit www.pt-int.com
Step 2: Click on the **Nassau Inn Meeting** button (which is just under the **Training Programs** button)
Step 3: Click on the **On-Line Registration** button.

Please select the modular sessions of the program:

- Module 1:** APIs and Stability
- Module 2:** Preformulation
- Module 3:** Formulation & Process Development
- Module 4:** Milling, Mixing & Flow
- Module 5:** Granulation
- Module 6:** Compaction / Tableting
- Module 7:** Film Coating
- Module 8:** Technology Transfer
- Module 9:** Overview of Drug Delivery Technologies

NO MORE HANDOUTS!

A FREE NOTEBOOK PC PLUS ELECTRONIC PRESENTATIONS FOR EVERY ATTENDEE!

10 % DISCOUNT FOR GROUP REGISTRATION OF 3 OR MORE!

Fees:	Minimum 5 Modules	Each Additional Module	All 9 Modules
Per Person	Limited Availability \$ 2,500.00	Limited Availability \$ 250.00	\$ 3,150.00
Per person (If 3 or more register per company at the same time)	Limited Availability \$ 2,250.00	Limited Availability \$ 225.00	\$ 2,835.00

Mr. Ms. Mrs. Dr. Prof.
